A partnership between Community HealthCare System (CHCS), Pottawatomie County Health Department and the communities we serve!
2016 Community Health Needs Assessment Report

Overview

Periodic Community Health Needs Assessments enhance the health and well-being of Pottawatomie County through strategic initiatives to address the findings of the assessments. The United States Patient Protection and Affordable Care Act requires us to conduct assessments every three years; the first was completed in 2013.

CHCS and the Pottawatomie County Health Department are conducting the 2016 assessment in partnership. The 2016 CHNA will advance from the 2013 efforts and updated population health data. CHCS and the health department have solicited input and consideration from a wide array of persons representing the broad interests of Pottawatomie County communities, with the exception of the Wamego area. The Wamego community partnered with the Riley County CHNA because of healthcare ties.

This CHNA presents updated population health information with community input utilized to determine focus and priorities for 2016-2019. The next steps will require further community input to identify goals and strategies for the Implementation Plan.

Community Health Needs Assessment
Executive Summary

Community HealthCare System
Pottawatomie County, Kansas, Health Department
2016 CHNA Executive Summary

The Patient Protection and Affordable Care Act requires charitable 501(c)(3) hospitals and public health departments to conduct Community Health Needs Assessments and create Implementation Strategies every three years. The first was initiated in 2013 and the second must be adopted in 2016. Identification of needs is to be accomplished through input from a wide variety of community stakeholders and from trusted data sources. The idea behind the CHNA requirement is that charitable and government health organizations are entrusted as stewards of limited resources to improve health. Our charge is to make charitable investments in activities that address the root causes of poor health and to build population health in our communities.

How have we responded to this challenge? First, the health department and CHCS worked together and contracted with a consultant in 2012 to complete a data search for health related information regarding Pottawatomie County. We conducted town hall meetings in 2012 and again in 2015 at various locations throughout the County. We considered how we could apply our resources towards identified health needs to create community benefit. We worked in teams to develop Implementation Strategies, to put them into action, and address our prioritized needs.

A good overview of many health statistics can be found in user-friendly style in the County Health Rankings (which ranks Pottawatomie County 3rd out of 101 participating Kansas Counties in overall health outcomes) http://www.countyhealthrankings.org/rankings/data/ks, U.S. Census Bureau State and County Quick Facts http://www.census.gov/quickfacts/table/PST045215/00, and Kansas Health Matters http://www.kansashealthmatters.org/. The data detail at the end of this document, though not as easy to read, is the detailed CHNA report. This summary will:

1) Reiterate 2013 community health priorities and progress
2) Relate 2016 priorities for the renewal CHNA
3) Help identify related CHCS and community benefit opportunities
4) Position us for adoption of the CHNA and development of Implementation Strategies
5) Highlight Data Sources and Recent Findings from the Full Report

1) 2013 Community Health Priorities and (Progress)

   a. Mental Health Services
      • Access to services (Created online map of mental health services in the County)
      • Support for those with mental health needs (Sponsored 4 Mental Health First Aid courses throughout the County)
   b. Wellness and Prevention
      • Obesity/Inactivity (Initiated farmers market with nutritional education and vouchers)
      • Immunizations (Pottawatomie County Health focused efforts in St. Marys)
      • Breast health (Identified hospitals in Wamego and CHCS to investigate)

2) 2016 Priorities for the Renewed CHNA

In preparation for the 2016 renewal of the CHNA, town hall meetings were held in Onaga on 11-3-15 and in St. Marys on 11-5-15. Input was also sought through the Onaga, Wheaton, Havensville
Chamber meeting in Havensville on 11-12-15. Additionally, a CHNA presentation was provided to the CHCS Medical Staff on 2-10-16.

Input from these groups is summarized here. There was recognition that the CHNA is an ongoing process to address ongoing issues. There was general consensus that the first CHNA tried to focus on too many issues and that the next three years would be best directed toward continuing efforts against a more narrow focus: obesity and inactivity. It was suggested to use positive terminology, such as improving nutrition and physical activity, and to put emphasis on what healthy outcomes could result: combating heart disease and diabetes. In summary, input yielded the following priorities for consideration of work groups during further planning.

**Work to Combat Heart Disease and Diabetes!**

a. Nutrition
   * Continue to promote farmers markets
   * Investigate community garden possibilities
   * Offer health fair with blood (Biometric screening)

b. Physical Activity
   * Promote/develop walking/biking trails
   * Pursue worksite and school partnerships for physical activity and wellness

3) Related CHCS and Community Benefit Opportunities
The Patient Protection and Affordable Care Act defines Community Benefit activities as those that benefit the community, rather than the organization, in certain ways. The following is not a comprehensive list, but example parameters include: activities carried out for the purpose of improving community health, has to be in response to a demonstrated community need, must be subsidized by the organization, cannot generate an IP or OP bill, cannot be primarily for marketing, cannot be more beneficial to the organization than to the community. As a 501(c)(3) charitable healthcare system, we must show that we provide Community Benefit.

The health department and CHCS providers and programs are asked to consider how their efforts are, or can be, aligned with our three year CHNA focus to combat heart disease and diabetes. Additionally, we are required to work with community members to develop Implementation Strategies for the nutrition and physical activity plans outlined in #2 above. Some efforts, such as CHCS farmers markets with nutritional vouchers are in place and will continue.

4) Adoption of the CHNA
The Board of Directors for CHCS will be introduced to the 2016 renewal CHNA at their February meeting and asked to consider approving it at their March 2016 meeting. The Pottawatomie County Commissioners will also be asked to approve the 2016 CHNA. Community teams will begin to develop Implementation Strategies upon CHNA approval by these governing bodies.

5) County and State Health Data Sources
Many data sources were utilized for the initial and follow up CHNA for Pottawatomie County, including U.S. Census Bureau: State and County QuickFacts. Data derived from Population Estimates, American Community Survey, Census of Population and Housing, Small Area Income and Poverty Estimates, State and County Housing Unit Estimates, County Business Patterns, Nonemployer Statistics, Economic Census,

A good overview of many health statistics can be found in user-friendly style in the County Health Rankings (which ranks Pottawatomie County 3rd out of 101 participating Kansas Counties in overall health outcomes) http://www.countyhealthrankings.org/rankings/data/ks, U.S. Census Bureau State and County Quick Facts http://www.census.gov/quickfacts/table/PST045215/00, and Kansas Health Matters http://www.kansashealthmatters.org/.

The following detail, though not as easy to read, is in the format provided by the consultant in the detailed CHNA report.

- DEMOGRAPHICS AND ECONOMICS (tabs 1 – 2): Pottawatomie County has an estimated population of 22,897 residents as of 2014, with a positive percentage change in growth from 2010 to 2014 of 6%. The percent of people living below the poverty level is 9.6%, lower in Pottawatomie County than the Kansas percentage of 13.8. The percent of persons in Pottawatomie County ages 65+ living below poverty level is 8.3%, higher than the State norm of 7.5%.

The per capita income in the County over the past 12 months is $24,892. The percent of unemployed individuals is 5.1% in the County, which is slightly lower than the Kansas percentage of 5.4%. There are approximately 7,974 households in Pottawatomie County with approximately 2.72 persons per household. The median household income for Pottawatomie County is $56,854, which is higher than the Kansas median household income of $51,332. The home ownership rate in the County is 67.5%, which is above the Kansas rate of 64.9%. The median value of owner-occupied housing units in the County is $128,400, which is lower than the Kansas value of $176,700.

- EDUCATION (tab 3): In Pottawatomie County, 26% of students are eligible for the free or reduced lunch program. The County high school graduation rate as of 2014 is 92%, significantly higher than the Kansas rate of 83%. The student-to-teacher ratio in Pottawatomie County is 12%, slightly lower than Kansas at 14%.

- MATERNAL & INFANT HEALTH (tab 4): The percent of births where prenatal care began in the first trimester in Pottawatomie County is 76%, lower than the Kansas percent of 79.4%. The percent of births with low birth weight is 4.6% compared to Kansas at 7.1%. The percentage of WIC mothers breastfeeding exclusively is 11.8%, lower than Kansas at 13.2%. Pottawatomie has a high percentage (91.9%) of mothers who initiate breastfeeding compared to Kansas at 86.1%. The percent of all births to teens ages 15-19 is 3.2%, significantly lower than the State of Kansas at 7.5%.

- HOSPITALIZATION/PROVIDER PROFILE (tab 5): The ratio of the population in Pottawatomie County to primary care physicians is 1,827:1; compared to Kansas at 1,380:1. The bacterial pneumonia hospital admission rate (per 100,000) is 345.40, which is higher than the Kansas rate of 244.40. The heart disease hospital admission rate in Pottawatomie County (per 100,000 population) is 288.8 as compared to 266.70 in Kansas. The Chronic Obstructive Pulmonary Disease admission rate is 11.70 in Pottawatomie County, slightly lower than the Kansas rate of 12.70.
• BEHAVIORAL HEALTH & REHAB (tab 6): The depression rate for the Medicare population in Pottawatomie County is 14.6%, lower than the Kansas norm of 16.2%. The percent of alcohol-impaired driving deaths is 23%, lower than the Kansas percentage of 35%. The percentage of people in Pottawatomie County with inadequate social support is 15%, just slightly lower than Kansas at 16%.

• HEALTH RISK PROFILES (tab 7): The adult obesity rate in Pottawatomie County is 32%, slightly above the Kansas rate of 30%. The percent of adults who drink excessively in Pottawatomie County (14%) is slightly lower than the Kansas percentage of 15%. The percent of people who are physically inactive is 24%, just under the Kansas rate of 25%. The average number of physically unhealthy days reported in the past 30 days is 2.4 in Pottawatomie County versus 2.8 for Kansas overall. The sexually transmitted infection rate (cases per 1,000 population) in Pottawatomie County is 1.5, lower than the Kansas rate of 4.7. Adult smoking rates are slightly higher in Pottawatomie County (19%) than in Kansas overall (18%).

• UNINSURED (tab 8): The uninsured population rate in Pottawatomie County is 12%, lower than the Kansas rate of 14%.

• MORTALITY PROFILE (tab 9): Major cardiovascular disease and diseases of the heart are the major causes of death in Pottawatomie County. The mortality rate in Pottawatomie County per 100,000 is 749.6 compared to Kansas at 753.9.

• PREVENTION (tab 10): The percent of Pottawatomie County infants fully immunized at 24 months is 64%, which is higher than Kansas at 61.5%. The percentage of diabetic screenings in Pottawatomie County is 89%, higher than Kansas at 86%. The percent of the Pottawatomie County population with adequate access to locations for physical activity is 50% compared to Kansas at 71%. The percentage of adults in the County engaging in regular physical activity (aerobic and strengthening exercise) is 14.6% compared to Kansas at 17.9%. The percentage of adults reporting fair or poor health is 9% in Pottawatomie County versus 13% for Kansas. The percentage of adults aged 20 and over reporting no leisure time physical activity is 24% in Pottawatomie County versus 25% for Kansas.
2. CHNA Partners

Community HealthCare System and the Pottawatomie County Health Department are collaborating within the communities of Pottawatomie County (with the exception of Wamego) to accomplish this CHNA.

a. Community HealthCare System

Administrative offices and contact information:

Todd Willert, CEO
Community HealthCare System
120 West 8th Street
Onaga, Kansas 66521
785-889-5002
toddwillert@chcsks.org

CHCS is a unique, rural and independent healthcare system with a service area of over 10,000 square miles in Northeast Kansas. CHCS owns and operated family practice clinics in seven different communities, along with two nursing homes, one assisted living unit, a home health agency, four rehabilitation/fitness centers and two hospitals operating under the same license. Maintaining this system are 471 employees including 22 local family practice physicians and midlevel practitioners. CHCS also has affiliations with an additional 50 specialty providers.

Within Pottawatomie County, CHCS operates hospitals in Onaga and St. Marys; family practice clinics in Onaga, St. Marys and Westmoreland, a nursing home in St. Marys, an assisted living program in Onaga, and a fitness center in Onaga.

CHCS has a designated Critical Access Hospital, is certified as an Emergent Stroke-Ready Hospital, a Level IV Trauma Certified Hospital, and has been continually awarded national for Home Health and Long Term Care. CHCS attributes its success to its board, staff and providers living their Mission: “to Enrich the Health and Lives of the People we Serve”.

CHCS Services include:

Hospital Inpatient and Outpatient Services  Birth Center
X-ray, CT, MRI, Digital Mammography  Lab
Family Practice  Rehab/Therapy Services
Fitness Center  Assisted Living
Specialty Clinics  Long Term Care Facility
Surgical Suite  Emergency Services
Home Health  DME
Nutrition Services  Swing Bed
2. CHNA Partners – Continued
b. Pottawatomie County Health Department

Office and contact information:

Leslie Campbell, Director and Health Officer
320 E Main Po Box 310
Westmoreland, KS 66549
785-457-3719
lcampbell@pottcounty.org

Pottawatomie County Health Department was established in 1973 by the County Commissioners. The commissioners are the local board of health for the department. Leslie Campbell, RN has been the County Health Director and Health Officer for 16 years and has worked at the county for 25 years. The department has eight full-time and five part-time employees.

The department's mission was adopted in 2013: "It is our mission to engage, encourage, and build community partnerships for the purpose of identifying and promoting a healthy living environment for the stakeholders of Pottawatomie County."

Services Include:

- Immunizations for Children and Adults
- Physicals for ages 0-18 by registered nurse
- Well Woman & Family Planning—annual exams, breast exams, STD exams, birth control, pregnancy testing, control, and healthy lifestyle promotion
- STD testing including HIV for men and women
- M&I Program—Education and support for pregnant women and infants under 1 yr
- Healthy Start Home Visitor Program—Education and support for pregnant women and families with a baby
- Car Seat Program
- WIC—supplemental food program for pregnant and breastfeeding women and children under five years of age – with Riley County.
- Childcare Licensing
- Communicable Disease Information
- Health Promotion and Education Programs
- Dental Screening provided by Dental Hygienist
- Fluoride Varnish Application
- TB Skin Testing
- Blood Pressure Checks
- Blood Lead Screening
- Toenail Trimming by Appt.
3. CHNA Methodology
   a. Process

Town hall meetings were held in Onaga and St. Marys in November of 2015. These were promoted in advance through local chamber of commerce groups, CHCS, posters throughout the communities and local newspapers. Interactive presentations were also held with the Onaga-Wheaton-Havensville Chamber and with CHCS Medical Staff. At each meeting there was discussion of quantitative data, current CHNA efforts, and future focus.

3. CHNA Methodology

b. Data Sources
Data sources utilized for this CHNA include gathering opinions from local sources and quantitative data from secondary sources. Many secondary data sources were utilized for the CHNA for Pottawatomie County, including U.S. Census Bureau, State and County QuickFacts, data derived from Population Estimates, American Community Survey, Census of Population and Housing, Small Area Income and Poverty Estimates, State and County Housing Unit Estimates, County Business Patterns, Non-employer Statistics, Economic Census, Survey of Business Owners, Building Permits, Consolidated Federal Funds Report; County Health Rankings, Kansas Health Matters, and Kansas Vital Statistics.

A good overview of many health statistics can be found in user-friendly style in the County Health Rankings (which ranks Pottawatomie County 3rd out of 101 participating Kansas Counties in overall health outcomes) http://www.countyhealthrankings.org/rankings/data/ks, U.S. Census Bureau State and County Quick Facts http://www.census.gov/quickfacts/table/PST045215/00, and Kansas Health Matters http://www.kansashealthmatters.org/.

3. CHNA Methodology

c. Demographics of Community Served
The community served is defined as all of Pottawatomie County except Wamego. Pottawatomie County is an expansive county of 551,692 acres or 862 square miles (Pottawatomie County). The northern portion of the county is largely agricultural while many southern areas consist of existing and planned developments.

The county contains several cities and towns including: Belvue, Blaine, Duluth, Emmett, Fostoria, Havensville, Louisville, East Manhattan, Olsburg, Onaga, St George, St Marys, Wamego, Westmoreland and Wheaton. Homeownership in Pottawatomie County is 71.1% compared to the state average of 60.2% (Ks Health Matters)

Pottawatomie County is a growing county, population of 22,302 (2014 Census update), with a continued expansion of new construction in the housing markets and business sectors. Manufacturing businesses, GTM and Caterpillar, make up the two largest employers in the county and CHCS shares third place with Walmart (Pottawatomie County Economic Dev.)

Median household income (in 2014 dollars) for Pottawatomie County was $60,479 compared with a Kansas median of $51,872 (KS Quick Facts). According to Small Area Income and Poverty Estimates in 2014 and Small Area Health Insurance Estimates, in 2013, 10% of the county’s population was in poverty and 11.1% of the population under the age of 65 did not have health insurance. 94% of the county’s population is white (KS Quick Facts 2014); all other races make up less than 2% each of the total population.

The county is home to several public and private school systems, including a High School nationally recognized for academics, two State Lakes and Tuttle Creek Reservoir.
In 2016 Wichita State University Center for Economic Development and Business Research identified Pottawatomie County as one of three Kansas Counties predicted to see 80 – 115% population growth over the next fifty years.
3. CHNA Methodology
d. Community Health Status – Pottawatomie County, KS

Community health outcomes are impacted by factors including behavior, access to care, social and economic factors and the physical environment. The 2014 County Health Rankings for Pottawatomie County, KS appear below. (The Robert Wood Johnson Foundation collaborates with the University of Wisconsin Population Health Institute to release annual County Health Rankings.)

4. Prioritization of Issues

a. Public meetings
   All Town Hall & Community Input priority-setting processes involve the input of key stakeholders in attendance. Individuals and organizations attending the Town Hall and other input meetings were critically important to the success of the CHNA. The following list outlines partners sought for the Town Hall meetings: local hospital, public health community, mental health community, community-based clinics, service providers, local residents, community leaders, opinion leaders, school leaders, businesses leaders, local government, faith-based organizations and persons, people with chronic conditions, uninsured community members, low income residents, and minority groups.

Pottawatomie County’s Town Hall meetings were held in early November with one on Tuesday, November 3, 2015 at 5 pm at the Senior Center in Onaga, KS and the second meeting on Thursday, November 5, 2015 at 12:30 pm at the George J Perry Memorial Armory in St Marys, KS. CHCS CEO, Todd Willert provided an introduction and Mindy Robbins, Susie Kufahl, and Leslie Campbell facilitated the 1 ½ hour session meetings with a combined total of nineteen (19) attendees.

The following Town Hall agenda was conducted:
1. Welcome & Introductions
2. Review the purpose, definition and role of conducting the CHNA
3. Present / Review of historical County Health Indicators
4. Facilitate Town Hall participant discussion of data (probe health strengths /concerns). Reflect on size and seriousness of any health concerns cited and discuss current community health strengths.
5. Engage Town Hall participants to rank community health concerns cited.
6. Close meetings by reflecting on the health needs / community voting results. Inform participants on “next steps”.

At the end of each Town Hall session, community members were encouraged to continue to contribute ideas to both hospital and health department leaders via email or personal conversations.

Two additional presentations were provided. One at the Onaga, Havensville, Wheaton Chamber meeting over the lunch hour on November 12, 2015. Susie Kufahl provided the presentation with 16 members in attendance. The final presentation was provided by Mindy Robbins at the Medical Staff meeting on February 10, 2016 with 30 attendees. (Note: detail rosters of meeting attendees are in Section 6.c.)

4. b. Community input
   The following is the combined input from the two town hall meetings, the Medical Staff meeting and the chamber meeting.
• Extend the CHCS mental health access website link to more websites.
• We focused on too many goals during the last assessment cycle
• There’s not a lot more that we can do at this time for mental health
• Maintain focus on obesity and inactivity
• Local physicians and midlevel practitioners have a focus on preventing heart disease and diabetes
• Use positive concepts: nutrition and activity instead of obesity and inactivity
• Continue and expand farmers markets
• Consider community gardens
• Utilize chambers more
• Offer a health fair with blood biometric screening
• Link websites to the CHCS website mental health links
• Encourage schools and exercise facilities to partner
• Improve the walking environment – walking/biking trails, walking to school bus
• Advertise
• Find a champion

In summary, there is a priority to work with nutrition and physical activity to prevent heart disease and diabetes. The other ideas all contribute to this direction.

5. Next Steps
• The CHNA is brought to the CHCS Board and the Pottawatomie County Commissioners for approval
• Publish CHNA
• Implementation planning meetings
• Finalize and adopt Implementation Plan
6. Detailed Exhibits

a. Inventory of health services – Pottawatomie County, KS

Pottawatomie County Community Health Needs Assessment

Community HealthCare System(CHCS) and the Pottawatomie County Health Department are seeking your input regarding the health of county citizens. These two organizations are conducting a Community Health Needs Assessment in follow up to one they conducted in 2012. Task forces within Pottawatomie County have worked on priority areas of identified need, including mental health, prevention, nutrition and obesity. Every three years, citizens are encouraged to participate in the county-wide health reassessment with updated statistics and input.

CHCS and Pottawatomie County Health Department extend an invitation to the public to attend one of two town hall meetings planned: Tuesday, November 3rd at 5:00 PM at the Senior Center, 200 Bypass Road, Onaga, KS and Thursday, November 5th at 12:30 PM at the George J Perry Memorial Armory, 110 South 5th Street, St. Marys, KS.
PUBLIC INVITED
